

## Technical Data

Item Description	Available Materials	Typical Dimensions	Product Illustration
Closure Strips for 7.2 Rib Siding	EPDM	1" thick x 40" Long Sections, profiled to match 7.2 Rib Siding	
Closure Strips for 4" Box Rib – Inside	EPDM	1" thick x 40" Long Sections, profiled to match 7.2 Rib Siding	
Closure Strips for 4" Box Rib –Outside	EPDM	1" thick x 40" Long Sections, profiled to match 7.2 Rib Siding	
Closure Strips for 1-1/4 x 1/4 Deep Corrugated Sheet	EPDM	36" Long Sections, profiled to match 1-1/4 x 1/4 Deep Corrugated Sheet	
Closure Strips for 2-1/2 x 1/2 Deep Corrugated Sheet	EPDM	36" Long Sections, profiled to match 2-1/2" x 1/2" Deep Corrugated Sheet	 (partial section)
Screws, Self-Tapping	T410SS	Various Sizes (From No. 8 x 1/2" thru No. 14 x 1")	
Screws, Stitch/Lap	T410SS	No. 14 x 7/8" No. 14 x 1-1/8"	
Tek Screws (Self-drilling)	T410SS	Tek-2 – 1/2" – 1" Long Tek-3 – 1" thru 3" Long * Tek-5 – 1-1/4" & 1-1/2" Long	

\*Note: Although the Tek Screw illustrated above has a #5 Point (the longest available drilling point), VMS provides Tek Screws in a variety of drill point types, as well as various diameters and overall screw lengths. Proper selection is dependent upon types and thicknesses of materials being penetrated and/or mated by the fastener. VMS Engineered Systems include appropriate fasteners and required quantities for all applications.

**Note: VMS furnishes a variety of accessory and fastener items other than those illustrated above. A more comprehensive list is included under "VMS Miscellaneous Items" (Section 8 of VMS Binder). Contact us for help in determining specific requirements for VMS fasteners and other accessories.**
